Dear Friends and Family,

This is a difficult email for me to write. I'm so used to helping others that asking for help doesn't come easily. But my daughter, Robyn, is in renal failure, and we are beginning the search for a very special person who might be willing to donate a kidney to her. This email is just the beginning, and I'm hoping that by reaching out to all of you, we can find someone willing to consider giving Robyn this incredible gift.

I'm asking for your help in spreading the word. Please forward this email to your friends and relatives, share it on social media, and consider sharing it with your sports groups, hairdresser, religious organizations, or any other community you're part of. The more people who hear Robyn's story, the greater our chances of reaching someone who may be able to help.

We want potential donors to know that financial assistance is available to help cover donation-related expenses, and we will work with the transplant team to explore support for anyone who needs to travel from out of town. The transplant center can provide details about donor eligibility, insurance considerations, and available financial assistance (see card below).

Robyn's birthday is June 5, and she will be turning 40. What a wonderful birthday gift it would be to find someone willing to give her the chance for a healthier future and more precious time with her family.

Thank you from the bottom of my heart for taking the time to read this, share it, and help us reach as many people as possible. Your support means more to us than words can express.

With love and gratitude,

The McKee Family

This card will help potential donors. You can register by calling the number listed on the back of the card or going to the website. Remember to use Robyn's name as the potential recipient.

A living-donor kidney transplant could save my life.

Could you be my second chance?

UPMC
LIFE CHANGING MEDICINE

Being a living donor means you are offering someone a second chance at life by allowing them to receive a kidney transplant sooner.
